6. THAT THIS PRESENT TS CONTROL SYSTEM BE CONVERTED TO A CARD SYSTEM.

The Executive Registry is adopting this recommendation. The use of a card TS Control System is suggested by the Agency Top Secret Control Officer. This system is presently used by several Area Top Secret Control Officers in the Agency. The benefits of a card control system are:

a. Provides a running inventory of all TS documents located in OBCI.

b. Provides a running inventory of all TS documents destroyed.

c. Provides a running inventory of all TS documents transferred outside the OBCI control point.
